

Below are some of the most recent emails I have had from FIT – going from the latest message to earlier ones in October:

Dear Mr. MacGregor, 11-08-11

RE: Ticket 35019

Our communications group is working toward completing the updated FIT map. As you know, it was removed from our website so that it could be updated.

The current timeline is to complete it before the year's end.

Regards,

The FIT Team

Is the map of FIT contracts offered for waterpower now available?

Subject: Ticket 35019
Date: Tue, 4 Oct 2011 13:04:30 -0400
From: microFIT@powerauthority.on.ca
To: khideaway@bell.net

Dear Mr. MacGregor,

Thank you for your email. As previously mentioned, the original map showing FIT projects was removed from the website because it was out of date.

It is now expected that an updated version of the map will be made available later this month. We apologize for the delay in posting this.

Regards,

The FIT Team

October 3, 2011

Hello - it has now been a month since my last request for a map of FIT contracts offered for waterpower. In my last request I also asked for the number of FIT contracts offered for waterpower. I have yet to receive a response to this, and after five months of requests (almost weekly) for this information I can only assume that the OPA and the government is prepared to allow this to escalate unnecessarily. I have contacted the premier's office as this type of public communication is clearly unacceptable. The public has a right to know what the liberal party (and I am/was a strong supporter of the liberals) intends to do on behalf of the citizens of Ontario with their natural resources. If I do not have this information by 3 pm today I will copy the media - this is entirely unacceptable.

Date: Tue, 6 Sep 2011 17:49:16 +0000

when will the map be completed - this is getting painful. It has been almost 5 months since my initial inquiry and nothing - how many fit contracts for waterpower have been offered and how many are still active?

Dear Mr. MacGregor,

Thank you for your continuing interest in this Program. As you are aware, the previous map has been removed from our website, as it is no longer accurate. Many contracts that were offered and were originally posted on them map are now terminated.

Our IT group is currently working on developing an updated map. This project has not yet reached completion.

We hope that you can understand our desire to represent the program honestly and accurately.

Regards,
The FIT Team

Is the map of FIT contracts offered for waterpower now available? If so where?

From here on – I have just copied the responses of FIT to my inquiries:

Dear Mr. MacGregor,

Thank you for your continuing interest in this Program. The OPA recently completed the contract offering phase for CAR projects enabled by the Bruce to Milton upgrades. As you are aware, applicants have 10 business days to respond to a contract offer. At this time, we are waiting for the 10 business days to pass, so that we can develop a map with an accurate resemblance of current contracts held between the OPA and various suppliers.

Dear Mr. MacGregor,

Thank you for your email. Unfortunately, I do not have an update for you with regards to a map of the FIT Contracts Offered. This map has not been published yet. The OPA does not have a timeline for its publication; however, we are aware that this map is in demand and are working towards finalizing it soon.
